

Assemblin Caverion in Sweden establishes a new business area for data centers

Press release

31 August 2026 at 09:00 CET

Assemblin Caverion in Sweden has established a new business area to meet the growing demand for complex data center projects and strengthen the company's specialist capabilities in sales, design, engineering, project management and coordination of technical installations and services.

Assemblin Caverion Data Center will become the fifth business area within Assemblin Caverion Group's Swedish division, which currently comprises the technical facility management company Caverion and Assemblin's three installation companies: Assemblin Electrical, Assemblin H&S, and Assemblin Ventilation. The new business area will be a specialised competence and coordination hub for data center projects, working closely with the other business areas to deliver comprehensive data center solutions.

The business area will be led by **Fredrik Allthin**, CEO Sweden, EVP.

"The data center market is developing rapidly across the Nordics. We have the experience and delivery capacity needed, and by establishing a dedicated Swedish business area, we can better coordinate our specialist capabilities and strengthen our customer offering", says Fredrik Allthin, CEO Sweden, EVP.

In the last twelve months, the Group has signed several new agreements in the data center segment, totaling of a capacity around 140 MW, including projects in Sweden as well as Finland, Denmark and Estonia.
